

LONGABERGER BASKETS® COLOR ACCENT WEAVING

FEATURES

- Weaves come in different colors and widths.
- Many of the weaves are pre-stained.
- As with our Warm Brown, Rich Brown and Deep Brown stains, color variations will occur in our color accent weaving depending on the maple base material.

BENEFITS

- Different colors and widths allow for versatility and flexibility in decorating.
- The pre-staining ensures rich, deep colors even after an overstain of Warm Brown, Rich Brown, Deep Brown, Whitewashed or Clear Coat is added.

CARE

- Use warm water and mild soap to gently remove soil from weaving. Allow to air dry.
- For more stubborn soil on your basket, use Mr. Clean Magic Eraser with mild soap. Do not scrub as basket stain may fade. Air dry.
- Avoid direct sunlight to reduce color fading and do not store near heating vents or damp areas to avoid drying and warping.
- Whitewashed shows marks much more easily. Be extra gentle in cleaning and recognize that the baskets take on an aged look more readily.

GOOD THINGS TO KNOW

- Our basket stains are water-based, allowing for improved color fastness.
