

Longaberger Woven Traditions Beverageware

Craftsmanship:

- Inspired by the timeless charm of Woven Traditions Pottery.
- Blends the distinctive look of Longaberger with the beauty of durable pressed glass.
- Unique basket weave design combines with an abstracted upsplint to coordinate beautifully with Woven Traditions Pottery and Flatware.
- Each bottom has a Woven "L" back stamp.

Quality:

- Heavier pressed glass is more durable for everyday use than blown glass.
- The heavy base shams feel balanced in hand and provide stability.
- The tapered shape makes the tumblers easy to handle.

Care:

- All Woven Traditions Beverageware is dishwasher safe.
- Avoid stacking as this may cause the glass to weaken and break.
- Avoid impact and extreme temperature changes.
- Do not expose glass to an open flame.
- To enhance the natural sparkle and luster of the glassware, rinse occasionally with a mild vinegar and water solution.

Function:

- Smooth interior is great for easy clean up.
- The non-porous surface prevents stains or odor absorption.
- Because tumblers are made in molds that open and close, seams are a normal part of the product. To minimize the seams, they have been worked into the design and fire polished as smoothly as the process will allow without eliminating the details in the design.
- Embossed details are avoided near the rim in order to keep the lip area clean. As a result, any visible seam is more evident in this area.
- 8oz. size is excellent for juice and tapered shape is great for preschooler's hands. The 17oz size is perfect for iced tea and soft drinks.
